

## Management commitment

We commit to acting in a consistent, predictable, and encouraging manner that complies with the values set out in the strategy of the National Audit Office. We aim at providing the employees with as good conditions as possible to implement the audit plan. We commit to managing and developing the audit, monitoring and expert operations for which we are responsible, and to working in cooperation to ensure that the performance targets laid down in the audit plan can be achieved as well as possible.

We will manage people and their work by setting goals and creating the prerequisites needed for achieving the goals. We will support each other and other employees in management duties to ensure that shared management will create the prerequisites for efficient high-quality work that has societal impact, a good work atmosphere, and a functional work community.

We will carry our responsibility for the shared management and active development of the National Audit Office in different management forums and in our special responsibility areas specified in the Rules of Procedure.
